

## Eldredge Public Library Wireless Internet Policy

### **Access**

Wireless Internet Service is a free public service provided by the Eldredge Public Library. The Service is available to both library patrons and visitors. Parents or guardians of children under 18 years of age should take responsibility in supervising their children in proper and safe use of the Internet.

Our wireless system is an open network. The EPL is not responsible for the interception of radio signal (wireless). Please be careful about transmitting your personal information on an open network.

### **Availability**

Although the EPL tries to maintain a wireless connection 24/7, as typical to all wireless networks, the service can be irregular and lose its signal at random. The Library makes no guarantees, implied or otherwise, regarding the reliability of the data connection and shall not be responsible for the loss or corruption of the data resulting from using the wireless internet connection.

### **Acceptable Use of the Service**

Your access to the wireless service is conditional on legal and appropriate use of the Internet. Please see our Internet Policy for more detailed Internet rules while you are using the Service.

### **Personal Equipment Security**

The Library is not responsible for theft or damage to patron equipment or lost data due to equipment failure. Please do not leave your laptop or any other personal belongings unattended.

### **Support**

Unfortunately, the staff at the EPL is unable to provide hands-on technical assistance to laptop users. Staff members are not allowed to touch patron computers due to liability reasons.
